Madison County Prescription Drug Take Back Day Is Saturday

by Submitted by the Madison County State's Attorney's Office October 25 2023 10:11 AM

DEA NATIONAL RAISE

Turn in unneeded medication for safe disposal.

Saturday, Oct. 28: 10 a.m. to 2 p.m. Madison County Administration Building (Back parking lot)

157 North Main Street, Edwardsville, IL 62025

EDWARDSVILLE - Madison County's Prescription Drug Take Back Day is Saturday Madison County's law enforcement agencies, in cooperation with the U.S. Drug Enforcement Administration, will operate a drop-off site for Prescription Drug Take Back Day from 10 a.m. to 2 p.m. on Saturday, Oct. 28, in Edwardsville. The event will be in the Madison County Administration Building's back parking lot at 157 North Main Street, Edwardsville, 62025.

Madison County State's Attorney Thomas A. Haine, Sheriff Jeff Connor and Coroner Steve Nonn will be operating the drop-off site in coordination with the DEA.

Haine said the event is "a convenient way for Madison County residents to help fight the overdose epidemic and save lives." Connor added, "I strongly encourage local residents to take advantage of this service. It's a way to dispose of unneeded medicines in a manner that is healthy and safe." Nonn said, "Many of the tragic overdose deaths we see could have been averted if unneeded prescription drugs had been disposed of properly."

The Prescription Drug Take Back Day provides an easy, no-cost opportunity to dispose of medicines stored in the home that are susceptible to abuse and theft. The majority of opioid addictions start with prescription pills found in medicine cabinets at home. Pharmaceutical drugs can be just as dangerous as street drugs when taken without a prescription or a doctor's supervision. Items that can be accepted at the event include:

Prescription medication including controlled substances

Over-the-counter medications

Vitamins

Items that cannot be accepted include:

Any illicit drugs. (These substances can be turned over to a police department at any time.)

Sharp objects, including needles, auto-injectors, etc. Please check with your waste disposal company to learn their procedures for the safe disposal of these items.

Liquids not secured in a leak-proof container. o Biohazardous materials.

Glass objects, including thermometers or other medical devices.

Aerosols, including inhalers. Since 2010, DEA, along with its law enforcement partners, has collected nearly 16 million pounds of unneeded prescription medications.

The Centers for Disease Control and Prevention estimates that in the United States, more than 107,000 people died as the result of a drug overdose last year. This figure means that someone in the United States is dying of a drug overdose every 5 minutes.
